Our Case : P24304

Dear Sirs:

Enclosed herewith are the following documents for filing with the U.S. Patent Office with respect to the above-noted U.S. patent application:

1. An Information Disclosure Statement signed by the applicant/inventor enclosing a Form PTO/SB/08A; and
2. A copy of each of the references referred to in the Information Disclosure Statement.

With respect to the cited references, all of the references are in English, or, in the case of JP 0625919, a copy of the English abstract is enclosed, except for Japanese application JP 2002190755. It is believed that Japanese application JP 2002190755 generally discloses a communication system capable of overcoming faults such as in the radio equipment, control part, or in the transmission line and defines the general state of the art, but is not considered to be of particular relevance.

I confirm that each of the items of information contained in this Information Disclosure Statement were first cited in a communication from a foreign Patent Office in a counterpart foreign application not more than three months prior to the filing of this Information Disclosure Statement.

This Information Disclosure Statement shall not be taken as an admission that any of these references listed herein constitute "Prior Art" under 35 U.S. §102 and/or 103.

Respectfully submitted,

WAYE, Patrick M.Y.
